

AeroAcoustics Aircraft Systems, Inc.

Aircraft Payload Extender III for Cessna Caravan 208 and 208B

INCREASED LANDING WEIGHT. AeroAcoustics Aircraft Systems has received FAA approval for the newest addition to our aircraft payload extender line (APE). The new APE III version increases the maximum landing gross weight of the Cessna Caravan 208 aircraft from 7800 lb to 8362 lb and the 208B aircraft from 8500 lb to 9000 lb. Installation of the APE III provides operators with increased flexibility; particularly on the short haul routes favored by the Caravan.

ENGINEERED FOR EASY INSTALLATION. The APE III modification primarily consists of replacing the existing, life limited, main landing gear axle with an improved axle without limits. The installed kit adds less than 2 lb. to the aircraft empty weight and can easily be installed in several hours. Operators can continue to fly the Caravan using the same procedures utilized before the APE installation.

FAA CERTIFIED. The APE III has undergone an extensive certification process resulting in the FAA issuing Supplemental Type Certificates SA01239SE for the 208/208A and SA01213 for the 208B. The APE III is manufactured in accordance with our FAA approved Parts Manufacturing Authority. Certification of the APE III on the 208, 208A and 208B follows previous certifications of APE systems on land-plane, amphibian and seaplane versions of the 208, 208A, and 208B.

PRE REQUISITES. The APE III works in conjunction with our previously certified APE II system and Cessna approved 29" tires. The APE II equipped Caravans provide an increased maximum takeoff gross weight of 8362 lb for the 208 and 9062 lb for the 208B.

KIT PRICE. The retail price of the APE III kit for the Cessna Caravan starts at \$10,995 for operators with the APE II already installed. To order simply contact us with your aircraft registration and serial number. We'll ship the same day so you can operate your Caravan with increased loads the next afternoon.

Shipping weight 15 lb without tires. Freight, taxes and duties extra.

Over 200 APE installations are operated worldwide. Put the APE onboard your Caravan today!
